DATAMASTER LAB AWARDS 2018

BEST PERFORMANCE IN WORK GROUPS

Color A3 MFP, 20-29 ppm

The Work Group tests analyze productivity in a busy working environment. We measure how a machine handles multiple print requests, and if it can scan and print simultaneously.

Cesson-Sévigné, France on January 31st, 2018.

Printer Benchmark
INDEPENDENT LABORATORY
the printing solutions experts

DataMaster Lab is completely independent and objective.

DataMaster Lab is the only European test laboratory specializing in the world of digital printing: printers, photocopiers, MFPs/MFDs, digital presses, and related software solutions. No revenue is derived from testing. All of the **DataMaster Lab** awards are derived from tests carried out by our own test teams.
