DATAMASTER LAB AWARDS 2018

BEST PRODUCTIVITY IN DUPLEX

Color A3 MFP, 40-49 ppm

The Duplex Productivity tests measure print speed onto both sides compared to the manufacturer's specified speed for single-sided printing. Many of this machine's competitors deliver duplex much more slowly.

Cesson-Sévigné, France on January 31st, 2018.

Printer Benchmark
INDEPENDENT LABORATORY
the printing solutions experts

DataMaster Lab is completely independent and objective.

DataMaster Lab is the only European test laboratory specializing in the world of digital printing: printers, photocopiers, MFPs/MFDs, digital presses, and related software solutions. No revenue is derived from testing. All of the **DataMaster Lab** awards are derived from tests carried out by our own test teams.
