# DATAMASTER LAB AWARDS 2018

# BEST PRODUCTIVITY IN DUPLEX

## *Color A3 MFP, 30-39 ppm*

The Duplex Productivity tests measure print speed onto both sides compared to the manufacturer's specified speed for single-sided printing. Many of this machine's competitors deliver duplex much more slowly.

Printer Benchmark
INDEPENDENT LABORATORY
the printing solutions experts

**DataMaster Lab** is completely independent and objective.

**DataMaster Lab** is the only European test laboratory specializing in the world of digital printing: printers, photocopiers, MFPs/MFDs, digital presses, and related software solutions. No revenue is derived from testing. All of the **DataMaster Lab** awards are derived from tests carried out by our own test teams.
